Klein Tools Builds on Popular MODbox™ with Launch of New Accessories

CHICAGO, November 15, 2023 – When [Klein Tools](#) unveiled the [MODbox™](#) mobile storage workstation this past spring, the premier manufacturer of hand tools promised to offer a fully customizable rolling toolbox unlike anything on the market. Building on its initial success, the company today announced the launch of several new accessories designed to help users further customize and create a truly unique experience reflective of their individual needs.

A variety of new storage and organizational add-ons will be rolling out throughout the first quarter of 2024 through Lowe's and leading electrical, HVAC, Industrial and Construction distributors nationwide. In total, five new storage solutions will be available enabling trade professionals more opportunities to customize their MODbox. New accessories will include:

- Drawer Boxes – Available as single-, two-, and three-drawer boxes, these durable storage cases
